

The reimbursement rate paid to skilled nursing facility (SNF) providers for the population described in 1902(a)(10)(A)(i)(VIII) of the Social Security Act shall be:

- (a) Medicare requires that a member has had a 3-day qualifying inpatient hospital stay within 30 days prior to admission to a SNF. The beneficiary must require Skilled Nursing care for a condition that was treated during the qualifying stay, or for a condition that arose while the beneficiary was in the SNF. As a result that Medicare uses an inpatient stay as a qualifying event and HIP does not, HIP will pay 130% Medicaid for SNF services.
